

MAIN-FRAME™

THE REVOLUTIONARY PROGRESSIVE NEW PRODUCT FROM WINNERS EDGE® FOR SHOW PIGS

Today's feeders know that the cost of gain is rising everyday and with ever-faster growing pigs, feed efficiency, skeletal soundness and mobility have become the all important issues. You need a product that will meet all of your animal's needs and yours!

Introducing MainFrame™, the newest product from WINNERS EDGE®
created to address these important concerns head on.

Winners Edge® customers know firsthand the benefits of feeding Winners Edge® products - better feed conversion, higher digestibility and microbial synthesis, reduced stress, increased fertility. MainFrame™ is a modified adaptation of the Winners Edge® Show Pig Feed Additive that has been the industry standard for over 25 years.

MainFrame™ is designed to enhance bone density, promote normal cartilage formation and further advance feed conversion through a combined process of physical and chemical adsorption by integrating a unique & exclusive blend of hydrates, known as zeolites, and naturally occurring botanicals (yucca schidigera extracts). Through recent studies, these compounds have shown the ability to bind and block the release of certain mycotoxins that inhibit or alter these important functions without affecting essential nutrients.

As with all Winners Edge® products, MainFrame™ is complete, all natural and fortified with all micro and macro chelated minerals, vitamins, amino acids, buffer, Kicker™ probiotics and enzymes just like the original PLUS the added benefits of these new components to keep 'em on their feet and on their feed.

MainFrame™ is available in 12# and 25# EZ-Stor pails and 50# bag. Start weaned pig on 1 ounce per day, at 70 pounds increase to 2 ounces per day. At 180 pounds it is very important to increase to 4 ounces per day until show date.

GUARANTEED ANALYSIS

LYSINE	MIN. 1.00%	SULFUR (S)	MIN. 0.68%	VITAMIN B12	MIN. 0.75 mg
METHIONINE	MIN. 0.50%	COPPER (Cu)	MIN. 100 ppm
